Types of Pew Cushions

Straight

Circular

Mitered

Self-Welt

Self-Welt (Box) Style

The classic look in reversible church cushions. Available tufted (with buttons) or untufted.

Modular Style

3/8 inch plywood base, 2 inches of foam, with a welted fabric case, pressure-stapled at our plant. No buttons needed for this non-reversible style pad.

Contour Style

A popular option with a custom rounded foam edge on opposite corners of the cushion. The cushion retains its reversibility yet presents a very contemporary look. Available tufted (with buttons) or untufted.

Contour

Modular

Pew Cushions must match the shape of the pew bench. A proper fit to the bench is essential. As shown here, there are three basic cushion shapes. Straight, Circular and Mitered.

Carpet

- Carpet direct from Shaw Industries.
- Quality commercial carpet direct from Shaw industries, the world leader in commercial carpet.
- Installation is provided by a CFI certified Master II carpet installer.

Standard Steeple Designs

Ambassador Series

Old Fashioned Craftsmanship With Modern Composites Technology...

With Durable Steel Framework, A 20 year Structure Warranty and Unparalleled Craftsmanship, These steeples stand above the rest.

All of these models feature steel anchoring systems. By using steel framework, that provide the best warranty in the industry...20 Years.

Each steeple features high performance fiberglass resin and ARMORCOTE® gel-coated from CCP. From the smallest mission church to the largest sanctuary, from existing structures to new construction, we can build a steeple to fit your needs.

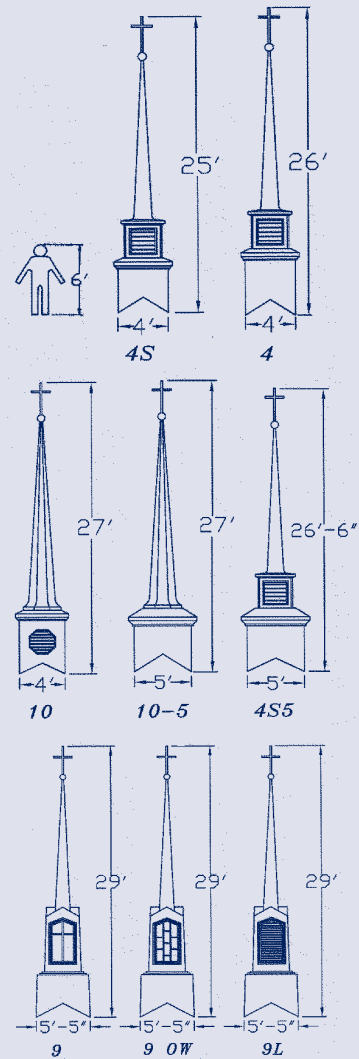

CUSTOM STEEPLES

Portable Stages and Risers

Trans-Fold is ready to go wherever your choir performs. Built-in wheels make it easy to roll the Trans-Fold unit from the classroom to the auditorium or up stairways and on to a bus or van. Upon arrival at the performance venue your Trans-Fold risers set up in seconds so they will be ready when you are. With an exclusive, gas-spring assisted design allows the unit to open with moderate foot pressure, taking the strain out of set up. This also insures a safe, controlled motion when folding the unit for transportation and storage.

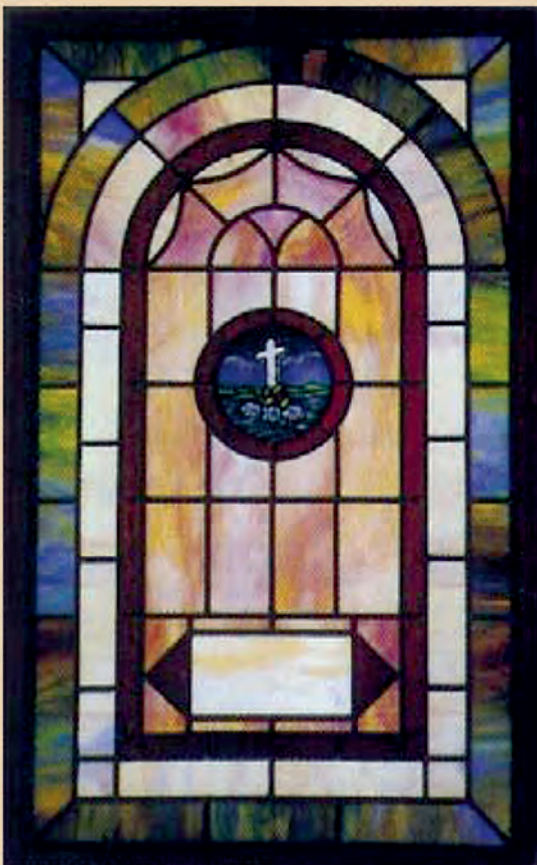

These portable stage platforms may be ordered in the same height to assemble a performing stage, or they may be ordered in up to 5 different heights to contract seated band and choral risers. Units fold to store in less than 2" in height when stacked. Dual height models allow easy conversion from seated risers to performing stages when needed. Units are constructed of heavy gauge steel and laminated plywood core decking for unsurpassed safety and durability. Unfold from storage to setup in seconds. Sturdy for long life and rigid for perfect safety. Shipped completely assembled.

"I can recommend Nu-Idea with the highest praise to any Church or other entity looking for the services they offer. Their commitment to excellence and authentic concern for people make their service outstanding."

Ms. Glenda Smith
Fairview Baptist Church, Greer, SC

"Recently, our church took on a major renovation project. I want to say that it was a genuine pleasure working with Nu-Idea on this endeavor. They were always professional, committed to your task and created an excellent working relationship with all involved. Your expertise was invaluable."

Dr. Robert Kinard, Pastor
Welch Zion Baptist Church, Newberry, SC

"The steeple committee and others in our church are very well pleased with the new steeple and the service that we received from Nu-Idea. Many in our community have commented about how well the steeple looks and how much it has improved the looks of our church."

Mr. Jim Tucker & Ms. Mary Psihos
Thomas Memorial Baptist Church, Bennettsville, SC
